DETAILED ACTION

Information Disclosure Statement

- The Information Disclosure statement(s) and related documents that were filed on 4-15-04 have been considered.

Claim Rejections - 35 USC § 102

- The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

** Claim(s) 8 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Kerr, Jr. et al. (6146191).

-- In reference to Claim(s) 8, Kerr shows (cover sheet)

a.) a housing 16 (figure 4) for mounting to the wall/ceiling, where the housing 16 includes a fixed electrical modular unit 30 having an open face containing plural electrical access openings (figure 11); and,

b.) an electrical appliance 6 (figure 1) including a second electrical modular unit 43 (figure 4) for removably mating with the first electrical modular unit 30, where the second electrical modular unit 43 includes plural legs (figure 4) for removably mating with the access openings.

Art Unit: 2833

-- In reference to Claim(s) 9, Kerr shows (figure 1) the electrical appliance is a ceiling fan.

** Claim(s) 8 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Cash, Jr. (6514652).

-- In reference to Claim(s) 8, Cash shows (cover sheet)

a.) a housing 12 (cover sheet) that can be used for mounting to the wall/ceiling, where the

housing 12 includes a fixed electrical modular unit 50 having an open face (near the lead line of numeral 20)

containing plural electrical access openings 52; and,

b.) an electrical appliance (processor; (cover sheet)) including a second electrical modular

unit 40 for removably mating with the first electrical modular unit 50, where the second electrical modular unit 40 includes plural legs 42 for removably mating with the access openings 52.

-- In reference to Claim(s) 10, Cash shows an electrical appliance 40 is a smoke alarm (column 13, line 39).

Reasons for Allowance

- Claims 1-7 are allowed.
- The following is an examiner's statement of reasons for allowance: The prior art does not show a U-shaped housing featuring a pair of legs having plural metal arms extending from the

Art Unit: 2833

legs for electrical engagement with the electrical access openings in combination with all the other elements of the claim and the examiner knows of no permissible motivation to combine the prior art such that the subject matter as a whole would have been obvious at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

•

• The prior art listed on PTO form 892 that is made of record and not relied upon is considered pertinent to applicant's disclosure because it shows the state of the art with respect to applicant's claimed invention. In particular reference to Figart, Bell, and Pearce, they all show modular units and electrical fixtures.
